GOOD FARMING METHODS AND GOOD FARMING EQUIPMENT GO HAND IN HAND

Just as the 4-H program teaches the farmers of tomorrow how to take advantage of recent techniclogical advances in farming, so does Redmon-Windham ractor Co. provide them with the most efficient equipment to till their soil. Good methods and efficient machinery enable the farmer to make higher profits. Redmon-Windham Tractor Co. has been glad to cooperate with the 4-H program each year by sponsoring the tractor driving contest in West Coffee County. We feel this youth training is essential to the profitable harvests of crops in the coming decades.

· COMPARE

and you'll choose CHILEAN NITRATE OF SODA

Because it's a natural fertilizer, and everybody knows a natural fe land, too; not just for today, but for the years ahead as well. Chilear Soda is a rare natural combination of nitrate nitrogen, sodium and minor elements. Its extra values distinguish it from other nitrogen fertilizers, account for its remarkable efficiency, for its beneficial effect upon soil fertility and the production of fine crops. The effectiveness of a nitrogen fertilizer for top-dressing and side-dressing depends almost directly on the proportion of nitrate nitrogen it contains. In Chilean Soda, the nitrogen is 100 per cent fast-acting nitrate—ready to work as soon as you apply it, rain or shine. But that's not all. Chilean Soda has sodium and minor elements, too-Sodium destroys soil acidity, substitutes for potash and calcium when necessary, increases the efficiency of nitrogen and helps plants make better use of other plant foods.

Where the soil is too acid; where potash is deficient or where the available phosphate supply is low; where the crop-needs quick help; or where one or more of the minor ele-ments is lacking, Natural Chilean Soda has no equal. Experience, they say, is the best teacher, and 100 years of consistently satisfactory experience with Natural Chilean Soda have demonstrated that there is nothing to compare with it for your top-dressing and side-dressing requirements. If you have any questions, we urge you to try it,

if only in a small way to begin with, and see the difference for yourself. You'll find it is e most economical and efficient nitrate LOOK FOR THE BULLDOG ON THE BAG!
